

SYDNEY FOOD SAFETY & BIOSECURITY WORKSHOP

AUSTRALIAN EGGS IS PLEASED TO PRESENT THE FOLLOWING SPEAKERS AND TOPICS:

1 Robert Moore (RMIT)

SPOTTY LIVER DISEASE

Background to the disease – what is it, how does it affect flock health and production?
Robert will be specifically looking at recent work in vaccine development and a feed additives trial.

2 Kapil Chousalkar (UoA)

SALMONELLA INTERVENTION STRATEGIES

Brief overview of *Salmonella* in the layer industry and intervention strategies. Kapil will focus on the University of Adelaide's ongoing research into *Salmonella* vaccinations & effectiveness of probiotics.

3 Susan Bibby (SBA)

GENETIC SELECTION OF HIGH PERFORMANCE LAYERS

Get a firsthand view into how breeding companies select for genetic progress and improvement – what traits are selected for, and why? What's next?

4 Helen Crabb (UoM)

ANTIMICROBIAL USAGE AND BIOSECURITY PRACTICES

Gain insight into antimicrobial usage in the egg industry and look at some preventative management measures in the biosecurity and food safety spheres.

5 Azizul Chowdhury (LLS)

BIOSECURITY – A SHARED RESPONSIBILITY

Aziz will discuss how to eliminate or minimise biosecurity risks in relation to matter, carriers or dealings. He will also give an overview of the Biosecurity Act 2015 requirements.

DATE 3rd July 2018 **TIME** 9:30am–3:00pm

VENUE Atura Blacktown (32 Cricketers Arms Rd, Prospect, NSW)
